

I am proud to be the principal of Monroeville Junior/Senior High School. Monroeville is a great place with a caring, close-knit community that prides itself on hard work and sacrifice toward the common good. These qualities show in the students that walk the halls of MHS.

Together, staff and administration strive to provide a safe and structured learning environment where all students can be successful as they work individually and cooperatively to reach their goals. Whether a student has a career-minded focus or college aspirations, a pathway that leads to a successful future is accessible to them. We encourage students to utilize their time in high school to explore their options, build upon their talents, and gain experiences that will help shape their future.

GO EAGLES!!!

Jim Kaczor - Principal
